

MSG Meeting
September 24, 2024

Dr. Deiorio –

- Student representatives for AAMC that will go to national conferences leadership opportunity
 - Separate role vs curriculum role extension
 - One person (M4) and you have three alternatives, only one person would go or if its close, 2 people
 - Will send an email with more information on the roles & responsibilities
 - We haven't had any one in >5 years (last done in 2018), it might have been linked to a past officer
 - October would be the first meeting this year, could formally introduce
 - Would it be funded? What would they do? Utility in going once to kind of get the feel of what it was.

- Class Updates
 - i. Class of 2025 - Social on Friday! Eras applications are due tomorrow.
 - ii. Class of 2026 - Second half of third year.
 - iii. Class of 2027 - Pulm this Thursday so everyone's hunkering down for that. Still working with the deans to find solutions around research opportunities and scheduling issues. CO 2027 is looking forward to our fall break.
 - iv. Class of 2028 - We wrapped up our Physiology block on Thursday of last week. We have our Officers Orientation tomorrow at 1pm with OME. Our Curriculum reps are already making our lives easier. Lots of folks are sick currently. Would love to hear M3 and M4 thoughts in addition to the EM clerkship M4 year.
 - 1. EM requirement clerkship vs AI may be worth to look into further
 - a. Tuesday, September 24th, 3-4 pm
 - b. Tuesday, October 1st, 4-5 pm

 - d. Tuesday, October 8th, 12-1 pm
 - 2. Can you repeat the questions
 - a. Mainly about timing of when the block would occur
 - b. Thoughts about potential negatives from current M4 perspective

- c. Would students then be required to do an ICU block instead of EM being an ok option for crit care// I think that's what's being explored right now, no answers currently
 - d. Ashley's thoughts: getting rid of exams for non-EM applicants, possibly maximizing the elective time in M3 year (though this would not benefit people applying into EM) and still concerned if the ER can accommodate all 200 students in addition to away students
 - e. Can it be competency achieved/ not achieved?
 - f. Shift count? Longitudinal?
